maisonlabyad.com | linkedin.com/in/salim-lakhal | github.com/salim-lakhal

EDUCATION

Télécom SudParis – Institut Polytechnique de Paris

Paris, France

Engineering Degree – Computer Science

2023 – 2026

- Courses: Software Engineering, Agile Project Management, Product Development, Networks & Systems, Database Systems

EXPERIENCE

Maison Labyad

Aug 2026 – Present

Founder – Short-Term Rental Property Management

Marrakech, Morocco

- Founded and launched a property management company for Airbnb villas & riads in Marrakech
- Built the full stack solo: bilingual website, dynamic pricing engine, internal market-tracking dashboard, and a data pipeline monitoring the local Airbnb market
- Structured commercial acquisition end-to-end: outreach scripts, lightweight CRM, in-person prospecting

Louis Vuitton

Sept 2025 – Sept 2026

Product Owner Intern – E-Commerce

Paris, France

- Piloted OMS API migration (v1 to v2) on Salesforce Commerce Cloud end-to-end: epics/user stories, UAT coordination with international stakeholders, zero-downtime releases on global e-commerce operations
- Built Node.js automation reducing new-country site creation from 3-6 months to under 1 week – presented to LV CIO
- Led cross-functional Agile/Scrum squad (developers, QA, architects) with Jira/Confluence: sprint planning, backlog refinement – improved velocity through hands-on ticket resolution

Endexa

Nov 2025 – Present

Founder – GEO Analytics Startup

Paris, France

- Building GEO Analytics platform for e-commerce companies: measures and improves AI discoverability across ChatGPT, Claude, Perplexity, Gemini
- Originated at Paris AI Hackathon @ Station F (Nov 2025) – 61 scoring criteria across 4 AI models; now developed as a full startup
- Owning full product roadmap: defining scoring methodology, building analytics pipeline, iterating on product-market fit for e-commerce clients

Meridiane

Jan 2025 – Present

Founder

Paris, France

- Owned full product lifecycle end-to-end: roadmap definition, backlog prioritization, shipped full SaaS platform (meridiane.fr) in 5 days as solo founder with paying users
- Orchestrated 20+ parallel workstreams (frontend, backend, SEO, infrastructure) with clear deliverables, quality gates, and rapid UX iteration cycles
- Built production AI features: document processing pipeline, GraphRAG knowledge graph, conversational chatbot, Stripe billing integration

XRPL Commons

Jun 2024 – Dec 2024

Software Engineering Intern → Freelance Developer

Paris, France

- Built full-stack blockchain education platform (Nuxt.js, MongoDB, Web3) – internship extended to freelance to complete 3 product iterations, delivered on schedule
- Managed feature prioritization and delivery in direct collaboration with founder; designed RESTful APIs, JSON/XML data transformation, JWT authentication

Kryptosphere IMT Paris

Jan 2024 – Jan 2025

President (Elected Leadership)

Paris, France

- Led 30+ member team across 6 departments – managed 15K budget, secured 5+ corporate partnerships (XRPL, Avalanche, Hedera, PwC)
- Organized 40+ training sessions and HAKS 2024 hackathon (50+ participants, 8K prize pool) – represented association in institutional negotiations

SELECTED PROJECTS

Bistro Table AI | *Three.js, React, Supabase, AI Integration*

Jan 2026

- Paris InnovHack – 3D AI menu platform: drove product vision, coordinated technical delivery, presented to jury

NASA Space Apps Challenge 2024 Paris | *Python, PyTorch, ResNet18, Flask*

Oct 2024

- Led 4-person team under 48h constraint as organizer & participant: scoped problem, split workstreams, coordinated ML and backend delivery – shipped moonquake/marsquake CNN classifier to demo (95% accuracy, F1: 0.93); owned stakeholder presentation
